

## PKP Timetable and Module Considerations

Once you're accepted on PKP, you'll be able to choose your courses through the online application system.

You have to take three courses and while there are some timetabling considerations to keep in mind, you can choose one of these course combinations:

### Course Combinations

- One Module 1 course, one Module 2 course and one Module 3 course
- One Module 1 course and two Module 2 courses
- Two Module 1 courses and one Module 2 course
- One Module 1 or Module 2 course and two Module 3 courses
- Three Module 3 courses

If you'd like to take the Independent Supervision, this counts as a Module 3 course.

### How do the modules work?

Our three modules span different periods of the programme.

Module 1 | First three weeks

Module 2 | Final three weeks

Module 3 | All six weeks

### Timetable Considerations

We offer quite a number of courses on PKP which means some classes need to run simultaneously. Within each module, our courses are divided into colour-coded teaching blocks.

<b>Module One</b>	(Pale) Yellow	(Pale) Blue	(Pale) Pink	(Pale) Brown
<b>Module Two</b>	(Dark) Yellow	(Dark) Blue	(Dark) Pink	(Dark) Brown
<b>Module Three</b>	Green	Orange	Maroon	Supervisions

When choosing your courses, you need to look at which colour teaching block the course is in as these courses run at the same time and can't be taken together. You wouldn't be able to take two Pale Yellow courses in Module 1 for example.

### Seminars

Alongside your lectures on PKP, you'll also attend seminars. Each course has two seminar groups (A and B) and you're assigned a group based on your course choices to make sure there are no timetable clashes. Once we've assigned you a group, you'll be able to see your allocated seminar groups on the online system.

### Non-Standard Courses

Courses in the brown and salmon teaching blocks follow a slightly different structure. Unfortunately, you **cannot** take these course combinations:

<b>Module One</b>	(Pale) Brown	(Pale) Pink
<b>Module One</b>	(Pale) Brown	(Pale) Yellow
<b>Module Two</b>	(Dark) Brown	(Dark) Pink
<b>Module Two</b>	(Dark) Brown	(Dark) Yellow
<b>Module Two</b>	Salmon (TBC)	<b>Any other</b> Module Two or <b>more than one</b> Module Three

## Module and Timetabling Groups – PKP 2020

New courses will be added to this list as and when they are confirmed for PKP 2020.

Module One	
Courses	Lecturer(s)
Advanced Microeconomic Theory	Dr Pawel Dziewulski
Alfred Hitchcock and Film Theory	Mr Charlie Ritchie
